

# Orange County ACM SIGCHI

Monthly Meeting

June 1, 2005, 6:00-7:30 PM

Held at Wonderware in Lake Forest

---

**Wednesday, June 1<sup>st</sup> at Wonderware in Lake Forest, 6:00 pm**

**Speaker:** Keri Carpenter, Ph.D. student of Informatics at UC Irvine

**Talk:** Online Political Organizing

**Abstract:**

Keri Carpenter's work investigates the question: how are new social network technologies affecting politics, especially national presidential campaigns? Keri answers this question by drawing from a field study of the 2004 Howard Dean presidential campaign. She looks at the development of Internet tools in the campaign, their deployment, administration, and usage as a coordination medium for the organization of forums, meetups, house parties, and victory-day parades across the country.

**Keri's Bio**

Keri Carpenter is a Ph.D. student in the Department of Informatics at the University of California, Irvine. Her research follows from ethnographic fieldwork that she conducted as an embedded researcher at the Dean for America Campaign during 2003-2004. Her current research focuses on the Dean for America blog as a locus for candidate communication and an online community of supporters.

**The meeting is free and open to anyone.**

## OCCHI

OCCHI has monthly gatherings offering presentations, panels, and demonstrations. Anyone is welcome to join. Membership in any other organization, national ACM or national SIGCHI, is **not** required. Current members include a wide variety of professionals with a common interest in human-computer interaction. They are interface designers, graphic designers, usability engineers, research scientists, psychologists, technical writers and software engineers. They work in large and small companies and universities. They are students, professors, independent consultants, and corporate employees. For more information and to become a member, visit our web sit at <http://www.oc-chi.org> and subscribe.
